

AL-KO THERM maintenance requirements

Please make sure that the following points are taken care of by the time of maintenance:

- Lifting platforms, lifting tools and equipment, scaffolding and ladders are provided onsite according to the provisions of the Employers' Liability Insurance Association, safety precautions have been taken.
- Clear transport paths have been established, packaging material disposal is taken care of, area is accessible during normal business hours (unless otherwise agreed upon) and there is sufficient illumination and sufficient current for both power and lighting.
- Any other onsite conditions and requirements have been pointed out in advance and coordinated.
- It has been coordinated in advance whether or not and/or to what extent onsite technical personnel must be made available for support. Their presence must be ensured as per agreement.

Notes:

- The maintenance of our ventilation systems, i.e. measures, includes the visual inspection, adjustment, lubrication, preservation, refilling, supplementing or replacing operating materials or consumables (e.g. lubricant or refrigerant) and the scheduled replacement of wear parts (e.g. filters) when their expected service life is obviously or as per manufacturer information shorter than the next maintenance interval.
- Chemical cleaning is not a part of our maintenance.
- The replacement of defective parts is part of repairs and is not included in maintenance. The measures to be carried out as well as the deadlines to be met are specified in the operating instructions.
- The maintenance does not include a claim for free fault rectification, even during the warranty period.
- The maintenance does not include liability for the proper planning, dimensioning and implementation of the complete system.
- We are not liable for any damage caused by transport.
- If any of the above-listed preliminary work has not been provided or is not available, then a new visit will be necessary. A second visit will only be carried out with an additional charge according to the time and travel expenses incurred. Our current charge rates apply. A new visit will only be carried out with verification of the work to be done.
- Wait times and fault rectifications for which we are not responsible will also be charged according to the effort involved.
